

Spacifysoft

about us

Established in 2002 Spacifysoft team has expertise in the Information Technology (IT) offshore development services to business worldwide. The company has successfully executed projects in the United States and Europe.

We are based in the IT capital of India, Bangalore. While our core services are provided from our headquarters in India, our international customers enjoy the added benefit of our business office located in Redwood City, California, USA. Our principal area of expertise is in the design, development and maintenance of Web Applications, Client Server Applications and Multimedia Applications. In addition to these, we offer Data Conversion, Quality Assurance, Application Documentation Services as well as the integration and expansion of legacy applications.

- **application development**
